

Mini-Ductor® II + [Model MD800P]

The NEW Mini-Ductor® II +

Using flameless Invisible Heat®, the tool heats metal parts in seconds. This allows all types of adhesives bonded to metal, bonded with thread lock compound and seized hardware to be removed and released - much quicker than by traditional naked flame heating.

With a new integrated CE filter [previously on the power cord], the Mini-Ductor® II + is easy to manage, more energy efficient and remains cooler in use for longer than its predecessor.

Ergonomically balanced offering better control while reducing user fatigue.

- (NEW) Operates cooler for better efficiency, handling and product longevity.
- (NEW) Integrated CE filter [previously on the power cord] improves handling of product.
- (NEW) Carry case; with storage for all attachments, fits in tool chests for security.

Find out more by calling +44 (0)1953 859138 or visit www.inductivelogic.co.uk/flameless-heating-products.html

- (NEW) yellow label
- Specifically designed for the UK/EU: 230v/6 amp/1000 watt – with full CE certification (110v pending).

Technical Specification

CE marked & RoHS compliant	
Length	15"
Depth	2.5"
Weight (including case)	3kg
Case material	Military grade virgin plastic, not recycled, for best durability
Power supply	230v/ 4.85 amp/1000 watt
Power output	1000 watt [max]
Warranty	1 year [limited]
Accessories [included in box]	Pre-formed coil MD99-601, U-form coil MD99-602 & Bearing buddy MD99-603
